Applicant(s)

YAMAGUCHI ET AL.

Examiner

Jonathan Ouellette

Art Unit

3629

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 29 December 2000.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

- 4) ☒ Claim(s) 1-59 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-59 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

## Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

## Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.

## Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)  
Paper No(s)/Mail Date 20010129.
- 4) ☐ Interview Summary (PTO-413)  
Paper No(s)/Mail Date. \_\_\_\_\_.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: \_\_\_\_\_.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
2. **Claims 1-14, 23-33, and 42-51 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zander (US 5,923,906) in view of Kodak ("Kodak to sponsor imaging center at Olympics," Photo Marketing Newsline, p1, February 4, 1998).**
3. **As per independent Claims 1 and 42**, Zander discloses a method of renting (vending) photographic equipment (C2 L1-19), the method comprising the steps of: loaning photographic equipment to a customer for storing image data captured by a image acquisition device; receiving, upon return, the photographic equipment from the customer; and maintaining information associated with the loan and return of the photographic equipment and the customer (C8 L8-61, Fig.16-17E, Fig.19A-19F).
4. While Zander does disclose a vending machine for different types of cameras, Zander fails to expressly disclose renting digital storage media.
5. However, Kodak discloses renting digital cameras (includes inherent digital storage media) ("Kodak to sponsor imaging center at Olympics," Photo Marketing Newsline, p1, February 4, 1998).

6. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have included renting digital storage media, as disclosed by Kodak in the system disclosed by Zander, for the advantage of providing a method of renting photographic equipment with the ability to increase customer service by allowing the vending system to supply all types of photographic equipment to users.
7. As per Claim 2, Zander and Kodak disclose wherein the removable digital storage media is lent at a first rental location and received at a second rental location.
8. As per Claim 3, Zander and Kodak disclose wherein the first rental location and the second rental location are the same location.
9. As per Claim 4, Zander and Kodak disclose wherein the first rental location and the second rental location are different locations.
10. As per Claims 5, 24, and 43, Zander and Kodak disclose wherein the removable digital storage media is associated with an identification code.
11. As per Claims 6, 25, and 44, Zander and Kodak disclose wherein the identification code associated with the removable digital storage media is securely stored on the removable digital storage media.
12. As per Claims 7, 26, and 45, Zander and Kodak disclose wherein the maintaining step further comprises assigning the identification code to the removable digital storage media.
13. As per Claims 8, 27, and 46, Zander and Kodak disclose wherein the maintaining step further comprises: assigning an identification code to the customer; associating the identification code of the removable digital storage media with the identification code of

the customer when the customer is lent the removable digital storage media; and dissociating the identification code of the removable digital storage media and the identification code of the customer when the removable digital storage media is received from the customer.

14. As per Claims 9, 28, and 47, Zander and Kodak disclose wherein the maintaining step further comprises: removing the identification code of the removable digital storage media from inventory of the first rental location when the removable digital storage media is lent by the first rental location to the customer; and adding the identification code of the removable digital storage media to inventory of the second rental location when the removable digital storage device is received by the second rental location.
15. As per Claims 10 and 29, Zander and Kodak disclose wherein information associated with the inventories of the first and second rental locations is stored in a data store, which is accessible by any of a plurality of rental locations.
16. As per Claims 11, 30, and 48, Zander and Kodak disclose wherein the maintaining step further comprises the steps of: assigning the identification code of a removable digital storage media with the identification code of a rental location when the rental location receives the removable digital storage media; and disassociating the identification code of removable digital storage media from the identification code of a rental location when the rental location lends the removable digital storage media.
17. As per Claims 12, 31, and 49, Zander and Kodak disclose balancing the inventory of the first and second rental locations.

18. As per Claims 13, 32, and 50, Zander and Kodak disclose the balancing step further comprising the steps of: determining a number of removable digital storage media located at each of the first and second rental locations; and transferring removable digital storage media from the first rental location to the second rental location when it is determined that the first rental location has an excess number of removable digital storage media and the second rental location has a deficient number of removable digital storage media.
19. As per Claims 14, 33, and 51, Zander and Kodak disclose the balancing step further comprising requesting a transfer of removable digital storage media from a first rental location by a second rental location when it is determined that the second rental location has a deficient number of removable digital storage media.
20. **As per independent Claim 23**, Zander discloses a system for renting (vending) photographic equipment at a first rental location to a customer for storing image data captured by a image acquisition device (C2 L1-19) and receiving, upon return, the photographic equipment at a second rental location from the customer (C8 L38-40), the media system comprising a maintenance system for maintaining information associated with the rental and return of the photographic equipment and the customer (C8 L8-61, Fig.16-17E, Fig.19A-19F).
21. While Zander does disclose a vending machine for different types of cameras, Zander fails to expressly disclose renting digital storage media.
22. However, Kodak discloses renting digital cameras (includes inherent digital storage media) ("Kodak to sponsor imaging center at Olympics," Photo Marketing Newslite, p1, February 4, 1998).

23. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have included renting digital storage media, as disclosed by Kodak in the system disclosed by Zander, for the advantage of providing a method of renting photographic equipment with the ability to increase customer service by allowing the vending system to supply all types of photographic equipment to users.
24. **Claims 15-22, 34-41, and 52-59 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zander in view of Kodak, and further in view of Shiota et al. (US 6,337,712).**
25. As per independent Claims 15, 34, and 52, Zander discloses a method of renting (vending) photographic equipment (C2 L1-19), the method comprising the steps of: loaning photographic equipment to a customer for storing data; receiving, upon return, the photographic equipment from the customer; processing the data stored on the returned photographic equipment; and maintaining information associated with the loan and return of the photographic equipment and information associated with the customer (C8 L8-61, Fig.16-17E, Fig.19A-19F).
26. While Zander does disclose a vending machine for different types of cameras, Zander fails to expressly disclose renting digital storage media.
27. However, Kodak discloses renting digital cameras (includes inherent digital storage media) ("Kodak to sponsor imaging center at Olympics," Photo Marketing Newslines, p1, February 4, 1998).
28. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have included renting digital storage media, as disclosed by

Kodak in the system disclosed by Zander, for the advantage of providing a method of renting photographic equipment with the ability to increase customer service by allowing the vending system to supply all types of photographic equipment to users.

29. Furthermore, while Zander does disclose processing the data provided by the returned photographic equipment, and Kodak discloses processing digital data provided by rented photographic equipment, neither expressly discloses an automatic processing system for use with removable digital storage media.

30. Shiota discloses processing data provided by a removable digital storage media (abstract, C2 L33-47, C3 L9-15).

31. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have included automatic processing system for use with removable digital storage media, as disclosed by Shiota, in the system disclosed by Kodak, in the system disclosed Zander, for the advantage of providing a method of renting photographic equipment with the ability to increase customer service by allowing the vending system to supply multiple photographic services to users.

32. As per Claims 16, 35, and 53, Zander, Kodak and Shiota disclose wherein the processing step further comprises making the digital data contained on the received removable digital storage media available to the customer.

33. As per Claims 17, 36, and 54, Zander, Kodak and Shiota disclose wherein the processing step further comprises the steps of: transferring the digital data contained on the removable digital storage media; and providing the other digital storage media containing the transferred data to the customer.

34. As per Claims 18, 37, and 55, Zander, Kodak and Shiota disclose wherein the processing step further comprises the steps of: uploading the digital data contained on the removable digital storage media received from the customer to a computer server; and providing the customer with access to the computer server.
35. As per Claims 19, 38, and 56, Zander, Kodak and Shiota disclose wherein the processing step further comprises emailing the digital data contained on the removable digital storage media received from the customer to one or more email accounts specified by the customer.
36. As per Claims 20, 39, and 57, Zander, Kodak and Shiota disclose wherein the processing step further comprises printing the digital data contained on the removable digital storage media received from the customer using an image forming apparatus.
37. As per Claims 21, 40, and 58, Zander, Kodak and Shiota disclose wherein the processing step further comprises the step of erasing the digital data contained on the received removable digital storage media.
38. As per Claims 22, 41, and 59, Zander, Kodak and Shiota disclose wherein the processing step further comprises the step of verifying the functionality of the received removable digital storage media.

***Conclusion***

39. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 3629

40. The following foreign patent is cited to show the best foreign prior art found by the examiner:

**Japanese Pat. No. JP 2001325658 A to ICHIKAWA**

Ichikawa discloses a digital camera vending and processing system.

41. Additional Non-Patent Literature has been referenced on the attached PTO-892 form, and the Examiner suggests the applicant review these documents before submitting any amendments.

42. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Ouellette whose telephone number is (703) 605-0662. The examiner can normally be reached on Monday through Thursday, 8am - 5:00pm.

43. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on (703) 308-2702. The fax phone numbers for the organization where this application or proceeding is assigned (703) 872-9306 for all official communications.

44. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 306-5484.
